

Figure 1 displays a 3x3 grid of 3x3 subgrids, each containing a different spin configuration. The subgrids are labeled A through I in the top-left corner. Each subgrid shows a 3x3 arrangement of arrows representing the spin of particles at those positions. The arrows point in various directions (up, down, left, right, and diagonally), indicating the spin state of the particles. The subgrids are arranged in a 3x3 grid, with each subgrid being a 3x3 subgrid of the overall 9x9 grid.
